

Community Gardening Group at the 5 Ways Bungalow, Lawrence Weston

Come along to our weekly gardening activity session, learn / share knowledge and skills with other members of the community and take part in seasonable, gentle gardening activities in the Bungalow's garden. The sessions will have a focus on growing vegetables and fruit and sharing the harvest locally.

Support and accessible tools are provided if needed. We will work in the bungalow if the weather prevents outdoor working and learn 'green crafts; like willow weaving, over the winter months.
